

Call for Tutorial Proposals

Always bustling with life, Thessaloniki, a modern metropolis bearing the marks of its stormy history and its cosmopolitan character, known for its hospitality and cuisine, is hosting the **23rd International Conference on Telecommunications (ICT)** in early summer 2016. The theme **"Expansion to Small"** aims to draw research community's attention to the enormous anticipated expansion of communication systems through small architectures and devices. Small cells, short wavelengths, small sensors, small scale communications going down to molecular level are expected to boost next generation communications leading to Big Data networking, massive Internet of Things and green, energy efficient applications. The web site of ICT 2016 can be found in <http://ict-2016.org>.

ICT 2016 solicits proposals for **half-day Tutorials** from leading researchers. Tutorials should provide clear and focused teaching material covering new and emerging topics within the scope of telecommunications.

If interested, please submit a (up to 4 pages) proposal, no later than **January 15, 2016**, via email with the subject line "ICT 2016 Tutorial Proposal" to both the **Tutorial Chairs Prof. Petar Popovski (petarp@es.aau.dk)** and **Dr. Dimitris Vergados (vergados@unipi.gr)**.

Each Tutorial proposal should describe concisely the content, importance and timeliness of the tutorial. It should contain the following sections:

- Title of the Tutorial.
- Outline of the Tutorial.
- The tutorial speaker(s) and where appropriate the topics they will cover in the Tutorial.
- Brief CVs for each tutorial speaker (no more than 200 words per person).
- Importance and timeliness of the Tutorial.
- Previous lecture and Tutorial experience of the Tutorial speaker(s).

Important Dates for Tutorial Proposals

- Proposal submission: **February 15, 2016**
- Notification of proposal acceptance: **February 29, 2016**
